COMPETITION RESULTS

List the competitions in which you have taken part this season, and enter your results only for the level required or higher, depending on the level of identification for which you are applying. Results for Young Horse tests or Freestyle tests are not considered.
For the location, indicate the province or state for competitions held in Canada and the United States. Otherwise, please enter the country where the competition was held. For event level, please indicate whether the event concerned is sanctioned at gold (or equivalent) or FEI level.
For each result submitted, please submit the hyperlink to verify it, or an official attestation from the show office, or a copy of your dressage test. Enter your results from highest to the lowest division/test, from best to lowest score.
Incomplete sheets will be refused and athletes will have to complete the missing information so that the results can be considered in the analysis of their application.
